

On your PC or web browser on your mobile device you will go to: <https://send.zoccam.com/login>

Registration

- If you don't have an existing account, you will need to register for an account by selecting the register link.
- Registration requires Full name, Email address (exactly 8 digits numbers only) and your mobile number.
- You will receive a verification code via text to complete your registration
- If you already have an existing account put in your mobile number and select get a one-time passcode.

Escrow Deposit

- Once logged in select Escrow Deposit
- Using the search window, type the name of the Title/Escrow Company
- Select the required branch location provided to you by the title/escrow agent
- Complete the required sections (property address, amount and buyer info)
- When all the necessary information is completed, the payment options will be highlighted. Select payment option. Paper check or create

Paper Check

- The paper check you are submitting should be filled out. Payable to the title company, signed, dated and the written and numerical portion of the check should be completed.
- When a paper check is selected, you will receive a text message that will contain a link. Click on the link to capture the front and back image of your check. Once the link opens select continue and then allow Zoccam access to your camera. Center the front of your check in the square box. The picture will be automatically taken. Flip the check over and do the same to the back and then select SEND. You will get a success on both your mobile device and the screen on the URL site. You will get an email confirmation once the deposit is completed. If you don't see it in your inbox, check your junk or spam folder as it is an automated email.

Create

- When selecting create the screen will open for you to put in your routing and account number for your CHECKING account. Once all the required information is completed, the preview check button will be highlighted. Select Preview check. You will get a text message with a link. Click the link and you will be provided with the e check. You will need to electronically sign the check in the right corner and submit. You will get a success on both your mobile device and the screen on the URL site. You will get an email confirmation once the deposit is completed. If you don't see it in your inbox, check your junk or spam folder as it is an automated email.
